

## Endorsement Letter

Asia Green Building Congress 2014 Organizing Committee,

As we know in china,on April 18, 2013, the MOHURD announced the "12<sup>th</sup> 5 Green Building & Eco-City Development Plan",on Jan. 1, 2013, the State Council forwarded the Action Plan on Green Building issued by NDRC ,this package of policy will vigorously promote the development of urban green buildings, building energy efficiency will also be leveraging the huge market potential.

Above all ,green building will be an important future market opportunities, the entire industry will develop rapidly, bring the entire green building industry chain companies enormous opportunities. The conference came into being, designed to create an industry exchanges, learning platform to promote eco city and green building development, building a resource-saving and environment friendly cities and towns, in order to achieve the beautiful China, sustainable development goals to make some contribution.

We are very proud to become the endorser of the Asian Green Building Congress 2014 , let us work together to create the platform for exchange and learning, we will provide the necessary support and assistance for this conference.
