

# Invitation Letter

## CSPE Environmental Technology & Facility Committee

The NDRC released WtE subsidy policy on last 10<sup>th</sup> April, State Council issued 12<sup>th</sup> Five-Year municipal solid waste disposal, facilities construction plan on last 19<sup>th</sup> April. Seven departments of the State Council jointly issued the "Waste to Energy Technology Engineering Twelfth Five special plan " on last 20<sup>th</sup> August. These three intensive policy will promote the waste to energy market development significantly.

Based on the successful event last year, to explore waste to energy industry 's future development strategy, exchange the domestic and international latest and most environmental friendly waste to energy technology, share the successful experience of domestic and international enterprises in waste to energy industry, hereby Asia Waste to Energy Congress 2013 will be scheduled on this 24<sup>th</sup>-25<sup>th</sup> September in Shanghai.

We sincerely invite you taking the time to attend the " Asia Waste to Energy Congress 2013 ", share with us your views and suggestions concerning the waste to energy. We look forward to provide a platform for the entire waste to energy supply chain, promote the policy complement, business cooperation, networking the technology as well, make a contribution for the energy efficient environmental friendly waste to energy industry.

Looking forward to your support and attendance !
